TOWN WARRANT

To the inhabitants of the Town of Derry, qualified to vote in Town Affairs:

You are hereby instructed to meet at the Adams Memorial Building in said Town on the second Tuesday of March next, at Ten O'Clock in the forenoon to act upon the following subjects:

1. To Elect one Selectman for three years, Town Clerk, Treasurer, Collector of Taxes, Library Trustees, Trustees of the Trust Funds, Auditors, and all other necessary town officials for the year ensuing.

2. To vote to raise and appropriate such sums of money as may be necessary for the support of schools, maintenance of the poor, for laying out and repairing highways, for the maintenance of trunk line and State aid roads, for building and repairing bridges, for the suppression of moths, for the police department and Municipal Court, for hydrant service and electric lights, for salaries of Town Officials, for the Board of Health, for expenses of Town Halls, for the support of Libraries, for payments to the sinking fund, for State and County taxes, for the use of Upton Post No. 45, G. A. R. to defray the expenses of Memorial Day, and for all other necessary charges arising in said Town.

3. To hear the reports of agents, auditors, and committees hereafter chosen and pass any vote relating thereto.

4. To see if the Town will vote to raise and appropriate a sum of money for the permanent improvement of highways in accordance with the provisions of Sec. 4, of Chapter 35 of the Laws of 1905 and any amendments thereto and pass any vote relating to the same.

5. To see what sum of money the Town will vote to raise and appropriate to sprinkle or oil the streets and pass any vote relating thereto.

6. To see if the Town will vote to raise and appropriate not exceeding three hundred dollars in aid of the Derry Visiting Nurse Association, and pass any vote relating thereto.

7. To see if the Town will vote to authorize its Selectmen to borrow money in anticipation of taxes, on the negogtiable notes of the Town and pass any vote relating thereto.

8. To see what sum of money the Town will vote to raise and appropriate for the purpose of cooperating with the State and Federal Governments in the control of the white pine blister, and pass any vote relating thereto.

9. To see if the Town will vote to accept the provisions of Chapter 117, Laws of 1917, on a section of the Derry-Raymond Road, so-called, and appropriate, or set aside from the amount raised for highway work, the sum of $250. for this purpose and pass any vote relating thereto.

10. To see if theTown will direct the Boston & Maine R. R. to erect and maintain gates by the sides of the railroad at South Avenue, so-called, and pass any vote relating thereto.

11. To see if the Town will vote to exempt from Taxes for a period of ten years the Capital investment in business of the Progressive Shoe Co. at 38 Maple Street, and pass any vote relating thereto.

12. To see if the Town will vote to exempt from Taxes for a period of ten years the Capital investment in business of the Davis Bros., at Derry Village, and pass any vote relating thereto.

13. To see if the Town will authorize its Board of Selectmen to sell and convey the Jackman Place, so-called, and pass any vote relating thereto.

14. To see if the Town will vote to close the road leading from the Hubbard Road to the Clapper Place, a distance of about ¾ of a mile, and the road leading from No. 5 school to the Frank Wells place for a distance of about ½ of a mile, and pass any vote relating thereto.

15. To see if the Town will vote to replace the electric street light at the head of Aiken Street, near the home of Willis F. Chase.

16. To see if the Town will authorize and instruct its Water Commissioners to purchase lot numbered forty-four (44) Hillside Park and raise and appropriate money therefor, and pass any vote relating thereto.

17. To see if the Town will vote to reimburse Mrs. Nancy A. Clark for damages sustained by her in the construction and maintenance of the Rockingham Road, so-called, and raise and appropriate money therefor.

18. To see if the Town will vote to macadamize or otherwise permanently improve that section of West Broadway between Fordway and Wyman Streets, to raise and

appropriate money for the same and pass any vote relating thereto.

19. To see if the Town will vote in favor of granting a permit to druggists for the sale of liquor in the Town of Derry for Medicinal, sacramental, scientific or mechanical purposes, in accordance with the provisions of Sec. 14, Ch. 147 of the Laws of 1917 as amended by Ch. 99, Sec. 9 of the Laws of 1919, and pass any vote relating thereto.

20. To see if the Town will vote to reconsider the vote passed at the annual meeting in March 1920, whereby it was voted to raise the sum of $4000. per year for five years for the purpose of erecting a memorial building and pass any vote relating thereto.

21. If the Town votes to reconsider its vote as provided in the preceeding article, to see if the Town will vote to expend the money already raised for a memorial building in making permanent repairs on the Adams Memorial Building, to raise additional money therefor, and pass any vote relating thereto.

22. To see if the Town will vote to raise and appropriate the sum of $10,000. to be expended upon permanent improvements on the Rockingham Road together with $20,000 appropriated by the State and Federal Governments and pass any vote relating thereto.

23. To see if the Town will direct the Tax Collector to allow a discount to all persons paying their taxes within such period as the Town shall limit, to fix the rate of such discount and pass any vote relating thereto.

24. To see if the Town will exempt from taxation the shoe business of W. M. Tapley & Co. for a period of ten years or any portion thereof and pass any vote relating thereto.

25. To appoint any necessary committee on any article embraced in this warrant.

Given under our hands and seals this 25 day of Feb. 1922.

DERRY FIRE DISTRICT

To the Voters of the Derry Fire District:

The Board of Fire Wards of the District hereby submit the following report.

During the year the department have answered to 66 calls, mostly telephone, none of a very serious nature, the total property damage was $6,904.00 the value of the property in which fires occurred was $334,725.00. In accord with your vote at the last annual meeting your board after careful investigation and study of equipment, purchased a hook and ladder truck, for the amount of your appropriation, $8,800.00, saving the district about $1,200; and we feel safe in saying that we have as good a piece of equipment of its kind as there is built.

We have also had rebuilt and epuipped as a chemical, the chassis purchased last year. It is open to your inspection at the fire station, and we believe it will bear inspection and stand up under the work it is intended for as well as any chemical equipment of its size, and as near as we can figure we have saved the district more than $3,000.00, if they were to buy one new to take its place. We have also carried out your vote in the remodeling of the front of the fire station, also other minor improvements, and we take pride in saying that we believe we have as good and well equipped fire department as there is in any city or town in the state and sincerely hope the whole meets with your approval; and we take this opportunity to thank the voters of the district for their hearty cooperation and support, and

the members of the department for their prompt and efficient service and obedience to all orders.

Respectfully submitted this 31st day of January 1922.

WILLIS F. CHASE
GEORGE W. HOISINGTON
CHAS. F. GILLESPIE

REPORT OF THE BOARD OF HEALTH

It is my pleasure to report that thus far, since taking up the duties of the Board of Health, in June 1921, the town has been fortunate in its health conditions, having had scarcely any infectious diseases with which to contend.

There have been a few cases of Chicken Pox reported in the schools, but the constant watchfulness of our efficient school nurse has checked its spread. Only one case each of Scarlet Fever, Measles and Diphtheria has been reported, each was light.

All person should know that cases of Tuberculosis, Scarlet Fever, Diphtheria, Small Pox, Measles, Whooping Cough and Chicken Pox should be reported to the Board of Health, although not all of them require a quarantine card.

This is very important in cases of Tuberculosis, a condition which is a great menace to family, neighbors and associates. This notification should be at the time the disease is apparent, instead of waiting until time of fumigation.

We are particularly fortunate in having, through the Red Cross, a Tuberculosis clinic, the need of which has proven itself by the number of cases in different stages, which have come to get the benefit of the examination and advice of Dr. Kerr, specialist, and the follow-up-visits by the clinic nurse, Miss Bancroft.

Through the activity of our visiting nurse Miss Daley and charitable assistance of some of our doctors, I am pleased to mention that we have a baby clinic which has proved very beneficial. If all plans work out as it hoped,

Miss Daley and Miss McCauley intend to establish a nutrition clinic in the near future. As a result of the school clinic many nose and throat operations have been performed, which greatly benefit the health and mentality of the children thus treated. It is hoped that people will continue to take advantage of these different clinics.

There have been a few cases where property owners have had to be notify to correct the conditions of cesspools and privies. It is to be hoped that no such notifications will be necessary during the coming year.

In spite of my notice given last August, regarding vaccination, several children had to be sent home after the term opened, to be vaccinated. This is a state law and will be enforced.

C. E. NEWELL, M. D.

Dec. 31, 1921.

DERRY WATER WORKS

Board of Commissioners

GUSTAVUS H. BEAN, Term Expires JJanuary 1, 1923.
WILLIAM T. MORSE, Term Expires January 1, 1924.
L. HENRY BAILEY, Term Expires January 1, 1925.

OFFICERS

G. H. BEAN, Chairman
WILLIAM T. MORSE, Clerk of Board
G. H. BEAN, Superintendent
CHARLES BARTLETT, Treasurer.

To the Board of Water Commissioners:

I herewith submit the annual report of the Superintendent for the year ending December 31, 1921.

This year we have finished the twelve inch pipe line from the new standpipe to High St. by taking up the old six inch pipe on Beacon St. near Lawrence and relaying it with twelve inch. Att he corner of High and Beacon we set one twelve and two six inch gates.

The vacuum pump for the pumping station which we spoke of in the last report was put in operation late in February, this completes the new equipment at the station. The eledtric pump installed last year has given entire satisfaction and has pumped all the water used during the year. The steam pumps are kept in working order and the boilers are used for heating.

Early in August the water was drawn from the old standpipe, it was repaired, scraped and painted inside and out, the work taking about four weeks, it can readily be seen that a thorough job like this was impossible while the town was dependent on this as its only reservoir.

The water has been analyzed by the State Board of Health as often as once a month also by the Bacteriological Laboratory of the Mass Institute of Technology, these reports are very satisfactory and are kept on file at the office where they may be seen by any one who is interested.

When the question of a new bridge on Brich street was under discussion we made an agreement with the Selectmen whereby we promised to pay the Town the sum of four hundred dollars, if some form of bridge was built that would give protection to the six inch water main running under the bridge. We believe this has been successfully accomplished. Ever since this pipe was laid it has been necessary to maintain a "frost valve" to prevent the unprotected main from freezing, this means a waste of about 110,000 gallons of water, or $33,00 per month.

Usually it has been necessary that the valve be open at least three months of the year. With the building of the present bridge this waste has been stopped.

Twelve leaks in main and service pipes have been repaired; 126 meters have been cleaned and repaired; 65 gates have been tested and 16 repaired one hydrant has been repaired.

STATISTICS

Number of services January 1, 1921, 873.
Number added during the year, 4.
Total number 877 of which 618 are metered.
Number of meters added during year, 12.
Number of hydrants, 69.

Total number of gallons of water pumped, 65,875,046.
Average number of gallons pumped per day, 183,496.
Total number of K. W. H. of electricity used, 87,250.
Average number of gallons pumped per K. W. H., 756.
Average cost of electricity per 1000 gallons, .0278.
Number of pounds of coal for heating 47,800.

LIBRARIAN'S REPORT

To the Trustees of the Derry Public Library:

The seventeenth annual report of the library, for the year ending January 31, 1922 is herewith presented;

In looking over the work I feel that a marked advance has been made in several particulars. The facts, however cannot be given in statistics.

Last spring the Secretary of the State Public Library Commission visited the library at our request, and supervised the enlarging of teh card catalogue, which when completed will add greatly to its value. The work which was started at that time was carried on during the summer and fall, and until the rush of winter work prohibited further time being spent upon it. Each book in turn is examined and cards written to cover the various subjects with which the book deals. These cards are in addition to the title and author which the catalogue already contains. For instance, the book entitled "Industrial Studies" may be found under cotton, coal, iron, canals, corn, wheat. Many of these cards refer to the pages in the book on which the subject appears.

This is a great help in looking up material for the student when we have not an entire book on the subject required and also to the teacher who wishes to send her whole class for a subject on which there may be only one or two books. It can easily be seen that this brings into use many books and much material which would otherwise be forgotten or neglected. This work will be continued as soon as the time can be found to devote to it. A new unit of the card catalogue case which is a sectional one, has been purchased to accomodate the increasing number of cards.

A new feature under the guise of "Children's Book Week" was observed this year for the first time. A number of juvenile books were purchased and during the week were on exhibition. This display attracted much attention from the children and other visitors and was a means of assistance to some in making desirable selections for Christmas gifts to children. An unusual large circulation marked the week as well as the one following when the new books were loaned. In the interest of Children's book week your librarian visited eleven school rooms speaking to over 400 pupils. Of this number only 50 were not patrons of the library; and during the week 25 of these came to the library and took out cards. This shows the close co-operation between the schools and the library. The library is glad to give assistance to teachers and pupils in every way possible and from their response we feel that this work is satisfactory.

A goodly number of pictures have been mounted during the year. The thanks of the library is due Mrs. Felix Seeler and Mrs. Joseph L. Wright of the Woman's Club who have spent several mornings assisting in cutting and mounting the pictures.

Library exchange has been instituted between this library and the Taylor Library. Since June we have borrowed 39 books, these have been almost entirely non-

fiction. We have the privelege of keeping these as long as we can circulate them, unless their return is requested. This arrangement gives to the citizens at this end of the town the privelege of reading many books which are not owned at this library. We have also obtained by special request, from patrons books from the State Library, the Manchester City Library and the Boston Public Library.

The circulation is practically the same as last year when we reported the largest in our history. There is a slight increase in the number of non-fiction loaned, and a corresponding decrease in fiction.

The library was represented by your librarian at the New Hampshire Library Association held at Keene. She also has attended two neighborhood gatherings of Librarians

Our bulletin boards have been kept filled with book notices, school lists and other matters of interest to the public and various means of advertising have been continued.

Our thanks are due to several, named below, for their kind donations of books also to the Woman's Club for the presentation of a fine illustrated juvenile volume. The news papers have continued to print our booklists and notices which kindness we acknowledge with appreciation.

REPORT OF THE TRUSTEES OF THE DERRY PUBLIC LIBRARY

For information concerning the work of the library for the last year, the people of Derry are referred to the accompanying report of the librarian, which, we believe, will be sufficiently enlightening. The continued large patronage is its best claim to the liberal support of all our citizens. Its more than 2000 present active patrons, nearly one half the entire population of the town, with its annual large circulation of 40,000 books is certainly good evidence that it supplies an important factor in the betterment of our community life, and is a monument of the wisdom, public spirit, and large hearted generosity of those to whom we are indebted for its institution. It is an institution "of the people, by the people, and for the people" of our whole township, and all are invited to share in its privileges. Again we would bespeak for our librarian's report a careful reading and thoughtful consideration.

J. H. NICHOLS

TAYLOR LIBRARY

Taylor library holds its place among the time honored institutions of the state, and its officers are trying to make its usefulness more and more felt in this community. We believe that its privileges are being more and more appreciated by its patrons. The effort that has been made the last year to place the books within the reach of a larger circles of readers is this town, has meet with the universal approval of interested parties. This is accomplished by exchanging books with the Derry Public Library on short

time loans, a perfect record being kept that all books may be returned to the right library promptly. This gives the readers in each section of the town, an opportunity to secure books from either library, as they have a right to do, without the expense of time and money to make the trips there once or twice a week. This plan we believe would meet the hearty approval of the founders of the library, and of those who have donated funds for the purchase of new books. During the past year the library has received leacies of nearly $3,600.00 from the estate of the late Frank S. Adams, of Boston, formerly of East Derry, and the sum of $500.00 from the estate of the late Miss Marcia Emery, of East Derry. In accordance with the laws of our state these legacies are in the custody of the trustees of the trust funds of the town of Derry. While the library room has been enlarged somewhat, the need of a new building for the better accomodation of all concerned is distressingly felt.

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School district in the town of Derry qualified to vote in district affairs;

You are rereby notified to meet at the Adams Memo-

rial Bldg. in said district on the 11th day of March 1922 at 2 o'clock in the Afternoon to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a member of the School Board for the ensuing three years.
4. To chose a Treasurer for the ensuing year.
5. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.
6. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.
7. To see how much money the District will raise and appropriate for the support of schools, high school tuition and for the payment of other obligations as set forth in the budget presented by the school board.
8. To see if the district will authorize the school board to enter into a contract with the trustees of Pinkerton Academy subject to the approval of the State Board of Education for the education of high school pupils at the rate of $70.00 per pupil and for what period of time.

Given under our hands at said Derry this 16th day of Feb. 1922

Amount to be raised and appropriated for superintendents salary, clerk hire and expense of administration 1,000.00

SUMMARY

Total Amount to be Assessed

High School Tuition	$12,000.00	
Elementarl $5 Tax	21,998.27	
Additional for elementary schools	8,972.73	
Statuary obligations	5,180.00	
Superintendent and administration	1,000.00	$49,151.00

Remainder of Fiscal year 1921-1922

Deficit on high school tuition	$ 5,000.00

REPORT OF THE SUPERINTENDENT

To the School Boards of Derry:-

I herwith submit my second annual report of the schools of Derry. In doing so I take pleasure in noting two characteristics of the town that militate for the good of the schools: (1) the favorable attitude of the parents and pupils toward school work: (2) the prosperity of the town.

The first characteristic is notable by the high rate of average attendance (95 per cent for 1921) and the few demands made upon the truant officer to enforce the compulsory attendance law.

The spirit of the pupils is most commendable. It is apparent that both parents and pupils believe the solution of the future welfare of the child is in the school. Such a spirit augurs well for the schools since it renders mangaement and control, the atmosphere of the school room wholesome and homelike and stimulates in the pupil a love of their work and a pride in it.

I have yet to have reported the case of a child having to remain at home because of lack of clothing or shoes. This is undoubtedly a remarkable circumstance. Nearly all towns have a contingent fund for the purpose of supplying the needy. This indicates a marked prosperity at the time when many other places are suffering a business depression.

NEW SCHOOL LAWS

The last Legislature (1921) made many changes in the school laws. The date of closing the fiscal year was changed from August 31 to June 30. In the future, inluding this year, the fiscal year will be July 1 to June 30

inclusive. The school year and the fiscal year are identical.

The principal changes in the laws affecting Derry were pertaining to state aid. The Legislature cut off the high school rebate not only for the future but for the school year when the legislature was in session (last year). This has been criticised as a retroactive law in violation of a contract but it is claimed by the State Board of Education on good legal advise that that the criticism is not justified.

HIGH SCHOOL REBATE

On acocunt of the rebate (high school) being cut off during the fiscal year the district meeting had to appropriate $8,000., to meet the deficit since the state had been paying the full amount of the tuition and at the same meeting raise another $8,000. to pay the tuition of the present fiscal year. Owing to a misunderstanding these two amounts are insufficient by approximately $5,000.

ELEMENTARY SCHOOL TAX

The elementary school tax was increased by changing the $5. tax from the assessed valuatioon to the equalized valuation. The equalized valuation is the valuation on which the state tax is assessed. In addition to the Selectmen's assessed valuation it includes insurance stock, deposits in savings banks and railway stock, right of way and buildings. This law reduces the state aid for elementary schools in general and limited the amount any town may receive to $6,000.

LOSS OF STATE AID INCREASES BUDGET

The maximum amount of state aid Derry may expect to receive is therefore $6,000. Our budget is consequent-

ly increased by the loss of the high school rebate $11,000. this fiscal year and $8,000. last year plus approximately $5,000. of state aid for elementary schools. On account of this legislation of the last legislature Derry has been compelled to increase its appropriations for school purposes $20,000. There is a deficit this fiscal year of about $5,000. owing to misunderstanding pertaining to high school tuition.

REPAIRS AND RENEWALS

The West Side School has been painted, the seats and desks varnished and repaired.

The Island Pond School has been remodelled, renovated on the interior and repaired. This district now has a thoroughly up to date, and modern school building at slight expense. The community, teacher and pupils are very much pleased with the new conditions.

No. 3 School has been renovated on the interior.

No. 4 School has been painted.

The itemised account of these expenditures will appear in next years report since the repairs were made during the present fiscal year. The total amount expended for repairs to date is $2,120.01.

THE JUNIOR SCHOOL

When school opened last fall the seventh and eighth grades were located at the Oak Street School on the upper floor with four teachers in charge and organized on a departmental basis. Miss Newbegin teaches English, reading, grammar, composition and spelling; Miss Sweeney, arithmetic and penmanship; Mrs. Adams geography and elementary science; Mrs. Lewis, history, civics and music. The outlines of these courses of study would be well worth discussion were it not for the limits of this report.

The vigorous manner in which the pupils are attacking the work in this school indicates the pupils consider the courses of practical value. The school enjoys a unity of purpose and an espirit de corps entirely lacking in separated grades where each grade is considered as a separate school.

STATE APPROVAL OF JUNIOR HIGH SCHOOL

The work of this school should be extended to include the practical arts, at least manual training, cooking and sewing.. The introduction of these courses will comply with the state requirements for an approved junior high school.

TAXATION

In order for the taxpayers to determine whether the children of Derry are afforded equal opportunity educationally with other children living in towns of about the same size as Derry I selected for comparison, five towns at rand- of having about the same number of pupils as Derry. The State Board of Education is authority for the number of pupils and the total cost to the towns exclusive of State aid. These figures are based upon the present fiscal year (1921-1922.)

Town	Population	No. Pupils	Total Cost to Town	Total Cost Per Pupil
Somersworth	6688	692	$47.276	$68.00
Gorham	2734	674	44,231	65.00
Franklin	6318	853	48,387	56.00
Hanover	1513	399	27,962	69.00
Exeter	4604	757	37,486	49.00
Milford	3783	830	43,929	52.00
Derry	5382	991	41,454	41.00

Derry is expending exclusive of state aid $41.00 per pupil of the town's money. Exeter is expending $49.00, Milford $52.00, Hanover $69.00, Franklin $56.00, Gorham $65.00 and Somersworth $68.00. Undoubtedly Derry is spending less per pupil than any other town of its size in the state.

POLICY

The table is placed here not to disclose that Derry must spend more money promiscuously upon education because it is the policy of this department to account for and justify the expenditures of every cent expended upon its schools. It is placed here to disclose that Derry does not afford many activities in its school program afforded elsewhere in towns the same size or smaller.

MEASUREMENTS AND TESTS

Tests have been given in reading, arithmetic, handwriting, spelling and general intelligence. These tests indicate every clearly to the teachers the type of individual treatment each child should receive. The tests disclose that more individual attention must be given the slow backward children than the normal and bright. It is the function of the school to correct the undirected experience of the child. The teacher should discover the defects of the child and direct his energies toward the undertakings and opportunities best adapted to his abilities.

GENERAL ABILITY TESTS

These tests disclose that we have in our schools the following distribution of pupils according to the several grades with the exception of the first two grades.

Grade	III	IV	V	VI	VII	VIII	Total
Very Dull	5	7	5	2	1	6	26
Dull	17	10	7	6	9	7	56
Backward	11	10	17	15	22	9	84
Normal	30	28	36	26	21	31	172
Bright	11	14	11	17	9	13	75
Very Bright	2	7	5	1	3	3	21
Very Superior	4	2	1	1	3	1	12
Total	80	78	82	68	68	70	446

WHAT THE TESTS DISCLOSE

These tests disclose the ability of the pupil wholly from an abstract point of view. In other words they rate the child upon mental traits similar in character to the traits which function in the performance of the general work of the school room. The tests do not disclose other abilities of a non-scholastic nature. Oftentimes pupils testing poorly in general school room work and regarded as superficial by their teachers are posessed of marked abilities in other activities. Dull pupils are frequently very industrious. The knowledge of such a handicap spurns them to greater efforts. Brightness on the other hand is not a guarantee of good scholarship. The ability to cooperate with others, discretion and good sense frequently count as much in life as a high degree of intelligence misplaced. The dull pupil frequently carries on with greater reliability than the bright pupil. A high order of manual dexterity is often characteristic of the backward pupil. So many of these pupils go out into life and become successful it has almost become an

axiom that industrious people are successful every where.

These tests disclose the necessity of enlarging the curricula so as to provide for the development of the abilities of our pupils along the lines indicated. Cooking, sewing and manual training develop the various abilities most likely to function in life.

The distribution discloses that we have twice as many dull and very dull pupils as we have bright and very bright pupils. What the reasons are that govern this distribution would be interesting to investigate. They are unnecessary to discuss since the children are with us. These children need special attention and should be provided with special instruction.

OVERCROWDED CONDITIONS

In seven rooms of the eighteen schoolrooms of the three buildings at West Derry there are more than forty pupils. Educators are generally agreed that teachers cannot be expected to produce the results they are capable of in rooms of more than thirty-two pupils. The rule has accordingly been established that schools are overcrowded when teachers have more than thirty-two pupils per class in elementary schools. In high schools the number per class should be still smaller.

The teachers whose employment is recommended in the following paragraphs could be used in such a manner as to "take up" on the over crowding under discussion.

RECOMMENDATIONS

I recommend the employment of three additional teachers. A teacher for manual training, cooking and sewing and a special teacher for backward children.

We have sufficient vacant space to carry on these activities. There is a room in the basement at Oak Street

and plenty of basement space well lighted. The rooms in the north wing of this building are sufficiently large to divide in case of necessity.

The equipment for practical arts is available from the fund so voted by the Parent-Teachers Association.

The total yearly expense of this program should not exceed $3,000.00. The per pupil cost will be less than $3. Such an amount is very small in view of the results to be obtained.

PINKERTON ACADEMY

Recently a meeting of the Academy Trustees and School Board was held. One of the Trustee's stated at one time the academy was a rich institution,—could maintain its affairs independent of the tuitions received and as a matter of fact the tuitions were expended merely for supplementary purposes. During the past few years, however, economic conditions have so changed that tuitions are now necessary for the payment of the current expenses of the academy.

The institution suffers from a deficit of a few thousand dollars which cannot be met save by increasing the tuitions. The School Board and Trustees decided that with a tuition of $70.00 per pupil for the present fiscal year and last year the deficit may be overcome this year and in the future the excess may be used to improve the conditions and teaching at the academy.

CONCLUSION

Such a report as this does not reveal much of the spirit and purpose of the school system. We fall so far short of our ideals that is is difficult to evaluate our work in the light of what we should like to accomplish. We are trying to cultivate a spirit of cooperation between parents

and teachers so that they will council for the good of the child involved. We are trying to pay attention to the individual child so that he will not be lost in the mass. We believe the public is not receiving as much as it should from the schools because it has not put as much as it should into them.

The interest and care you as a School Board have exercised have been a real inspiration to me and have made my task very congenial. The full attendance of all members of the Board at the board meetings indicates your willingness to devote time and energy to the schools. I feel sure the town appreciates your services.

Respectfully submitted

CARL COTTON

Superintendent of Schools

To Mr. Carl Cotton, Supt. of Schools, Derry, N. H.

Dear Sir:

I herewith submit my second report of school nursing in Derry School District, from Jan. 31st, 1921 to March 1st, 1922.

Drs. Barker, Cogswell, Newell and Beckley gave the necessary time in 1921 to examine each child.

Following is a list of defects as revealed by these examinations:

Number Examined	756	Cards to Parents	Corrections
Skin Diseases	11	11	11
Orthopedic	14	14	14
Defective teeth	472	472	235
Defective Tonsils	389	389	75
Defective Vision	54	54	16
Defective Hearing	18	18	2
Enlarged Cervical Glands	108	108	
Malnutrition	269		
Pediculosis	54	54	54
Unsuccessful Vaccinations	101	101	99

Dr. Newell has examined the children of Numbers 1-2-3-4-6-7- this school year.

Dr Barker has examined four grades in Westside School.

Drs. Cogswell and Beckley will examine the Oak Street and Floyd Schools respectively, at their convenience.

This is the third year of examinations by these doctors without compensation.

In March, 1921, The Derry Red Cross, furnished the necessary equipment to carry on the tonsil and adenoid clinics in the Floyd School. Fifty children have been operated on there.

As soon as arrangements can be made, a nutrition clinic will be held in cooperation with Derry Visiting Nurse Association. This is made possible with funds furnished by the Thalian Club.

Numerous individual inspections, checking up health conditions and habits are made throughout the year.

One of the biggest problems this year, has been that of pediculosis (head lice). Children having head lice are excluded from school under the law which prohibits any person from attending school if afflicted with a communicable disease. In most cases the children excluded are the same year after year. Much annoyance is caused other children who are entirely innocent victims. There are effective remedies for this condition, and with stringent efforts on the part of the parents, the entire extermination could be secured. A school nurse has no jurisdiction over pre or post school age. It is quite necessary to clean up the whole family.

Another skin disease which has been quite prevalent is scabies or itch. The parents, in most cases, of children excluded for this, have cooperated splendidly, and cures have been affected quickly.

From a health aspect, the school buildings on a whole, are improved over last year; painting, revarnishing, remodeling, and oiling of floors having been done during the summer vacation. Although there are yet many improve-

ments to be made, we are enouraged over what has been done, and trust that in the near future the remainder will be taken care of.

East Derry School has had many changes during the year, made possible by Adams School fund. A new furnace has been installed, thus regulating heat and ventilation; toilets improved; a new floor laid; a new sink placed in kitchen; arrangements for coat hangers for outside garments, and a very generous equipment for making and serving hot lunches, including, besides dishes of all sorts, milk, canned corn, tomato soup, malted milk cocoa, crackers and all the necessary condiments.

A fine type of scales with measuring rod has been added and the children will be weighed regularly once a month, making it possible to watch their condition by this means, since we know that with children of school age, no less than with infants, weight in proportion to age and height is an index to health. Seats and desks are old type, so, of course, do not conform with the requirements. Although electric lights have been installed, this does not correct the present lighting, which should come principally from the left or from the left and rear.

PINKERTON ACADEMY

Inspections were made at Pinkerton Academy Jan. 16-23 inclusive.

De fects were found as follows:

Number Examined	277	Notices sent to Parents
Malnutrition	68	
Defective Vision	39	39
Skin Diseases	18	3
Pediculosis	7	3
Defective Teeth	145	145
Defective Tonsils	103	103
Enlarged Cervical Glands	94	94
Enlarged Thyroid Glands	17	17
Uncessfully Cacci-nated	7	7

Health education is still in the pioneer stage, and not until we have a definite program extending through the grades, will the general advancement show to any appreciable degree; on the other hand, whatever the course in health education might be, instructions most worth while for any child, depends upon the individual needs of the boy or girl.

To my mind, the most important equipment any school should have is dependable scales, and systematic weighing. A child should grow, and if he or she does not, there is a reason. Weighing once a month and sending the information home with the correct weight for age and height would go far towards stimulating interest in the parents.

The goal we are in quest of, is healthy men and women. Healthy men and women will insure to the community a higher mental and moral state.

Much credit is due the teachers for securing the interest of the children along these lines, through their work with the Health Crusadee, talks in class, and the making of health posters.

Also the interest created by Walter Camp's "Daily Dozen" suggested by Mr. Cotton.

Respectfully submitted

ELIZABETH H. McCAULEY, R. N.

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School district in the town of Derry No. 2 District qualified to vote in district affairs;

You are hereby notified to meet at the Derry Village School in said district on the 11th day of March 1922, at 2 o'clock in the afternoon to act upon the following subjects:

1. To choose a Moderator for the coming year.

2. To choose a Clerk for the ensuing year.

3. To choose a member of the School Board for the ensuing three years.

4. To choose a Treasurer for the ensuing year.

5. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.

6. To choose Agents, Auditors and Committees in relation to the subject embraced in this warrant.

7. To see how much money the District will raise and appropriate for the support of the schools.

8. To choose a member of the School Board for the ensuing year.

Given under our hands at said Derry Village this 23rd, day of February 1922.

BESSIE E. CLARK
ARTHUR G. REYNOLDS
EMMA A. CAMPBELL
School Board.
